## ACO and RCF: THE RANGE EXPANDS

### FLUID COOLERS

FOR MACHINE MANUFACTURERS

For **Metal**-processing machines, for **packing** machines for the **pharmaceutical** and **chemical industry**, **printing** machines, for **wood**-processing machines, **laser** cutting machines, **food-industry**, **plastic** and **glass**-processing machines, for **tobacco**-processing machines, **welding**, high frequency **electronic equipment**.

WITH A VIEW TO UPDATING ITS PRODUCT RANGE AND CONSTANTLY IMPROVING PERFORMANCE, **EURO COLD SRL** IS PLEASED TO ANNOUNCE **A MAJOR EXPANSION OF ITS RANGE OF OIL AND CUTTING FLUID CHILLERS.**

### ACO

**Oil chillers** are extremely reliable appliances for keeping lubrication circuits at a certain temperature: this is essential to guarantee the functionality and efficiency of any production system, from the simplest machine tool to highly automated processing lines.

### RCF

**Cutting fluid chillers** guarantee precise and accurate temperature control, while keeping working conditions stable and increasing the efficiency and productivity of the plant.

Euro Cold's **RCF-SD** range has been designed with direct exchange technology, using counterflow evaporators with removable tube bundles, both of which have a significantly large cross-section. This solution results in a drastic reduction in the risk of clogging and lower energy consumption thanks to the fact that the exchange efficiency is maintained over time and the operating pressures are reduced.

Please contact our sales department.

We will be happy to provide you with any information you may need.

The following new models are now available  
for the **ACO**, **RCFE-SD** and **RCFO-SD** chiller range:

MODEL

**450**

POWER

**50470 W**

MODEL

**580**

POWER

**67270 W**

MODEL

**620**

POWER

**81680 W**
