FLUID COOLERS

FOR MACHINE MANUFACTURERS

For **Metal**-processing machines, for **packing** machines for the **pharmaceutical** and **chemical industry**, **printing** machines, for **wood**-processing machines, **laser** cutting machines, **food-industry**, **plastic** and **glass**-processing machines, for **tobacco**-processing machines, **welding**, high frequency **electronic equipment**.

WITH A VIEW TO UPDATING ITS PRODUCT RANGE
AND CONSTANTLY IMPROVING PERFORMANCE,
EURO COLD SRL IS PLEASED TO ANNOUNCE
**AN EXPANSION OF ITS RANGE
OF WATER CONDENSED WATER CHILLERS.**

WCW

The water condensed water chiller (WCW) is employed when the user is equipped with a centralized industrial water network, whose temperature does not exceed +35°C.

The choice of the **WCW** chiller avoids the release into the environment of the heat known to be generated by an air condensed water chiller. A supplied special mechanical proportional valve minimizes water consumption, while ensuring optimal operation.

A further upgrading is the reduction of noise that is mainly appreciated in environments where noise pollution is particularly problematic.

Please contact our sales department.

We will be happy to provide you with any information you may need.

WCW - Water condensed water chillers: THE RANGE EXPANDS

The following new models are now available for the **WCW** chiller range:

**MODEL
450**

**POWER
50470 W**

**MODEL
580**

**POWER
67270 W**

**MODEL
620**

**POWER
81680 W**
